# HOTSPOT

Wireless Internet at home or on-the-go!

## Included in the box-

Hotspot device, Quick Start Guide, Power Adapter, and USB Cable

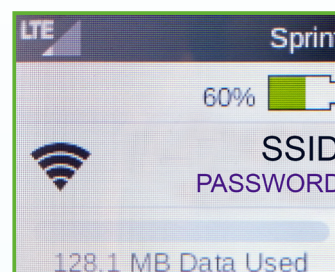

- **Wireless Internet at home or on-the-go**
- **Up to 10-hour battery life**
- **Connect up to 10 Wi-Fi-enabled devices**
- **Must be 18 years or older**
- **Must have a CLEVNET Library card in good standing**

### 1 Turning on the HOTSPOT

Power on your Hotspot device by pressing and holding the power button until you see the screen come on. Give the device a few moments to load.

PLEASE NOTE: If your screen will not turn on, charge your Hotspot for at least 2 hours using the power adapter provided.

### 2 Check your screen

Once you see this screen, your Hotspot device is ready to connect any Wi-Fi-enabled device.

Connect your Hotspot to your Wi-Fi-enabled device using the Wi-Fi Network Name (SSID) and Wi-Fi Default Password shown on your screen.

### 3 Connect to Internet

On your computer, open the Wireless Network Connection located at the bottom right-hand corner of your computer screen. Select the Wi-Fi network name of your device and enter the Wi-Fi password when prompted. That's it! You are now ready to start browsing the web.
